

Flash II REPORT 2065 (2008-09)

GOVERNMENT OF NEPAL
MINISTRY OF EDUCATION
DEPARTMENT OF EDUCATION

Sanothimi, Bhaktapur
August, 2009

Foreword

The Educational Management Information System (EMIS) in Nepal has been gradually evolving and demonstrably improving from the perspective of information collection, interpretation and presentation. Specially, EMIS has been used to derive the Flash Reports. Content of these reports (analysis, charts, graphs, maps etc.) show the progress against agreed educational indicators for the Education for All (EFA) programme.

This report (Flash II) provides a snapshot of enrolment in the end of the school year, exam appearance rates, pass rates, retention rates of students, and attendance rates of students at all levels of the school education system in disaggregate forms-by eco-zone and by districts. As well this report analyses the training status of teachers and considers how well schools are supplied with basic supports from DEOs. Such measures give an indication of the effectiveness of the education system. It helps to identify whether the education system is functioning well and indicate special areas where greater attention is needed. Such baseline performance information can be used to inform educational planning at district, regional and national levels, and to ensure that precious resources are invested where they can have maximum impact.

In the process of preparation of this report many peoples and organization have contributed in various ways. In general, this report is the result of collective and collaborative efforts of EMIS core team members and volunteer of Department of Education, UIS team from Bangkok and UNESCO Nepal Office Team. Various Development Partners have also been engaged in a constructive dialogue. In particular, I am grateful to the EMIS Core-team members. As well the contribution of educational staff at different level- RED, DEO and School is praiseworthy.

Table of Contents

Contents	Page No.
Foreword	
Table of Contents	i – ii
List of Tables, Figures and Maps	iii - v
Acronyms	vi
Part I	1-3
1 Introduction	1
2 The Flash II report	1
3 Methodology	1-2
4 Time line of Flash data collection	2
5 Data covered in Flash II	2-3
6 Reliability of the data	3
Part II	4-28
1 Data analysis	4
2 Flash II indicators and analysis	4-26
2.1 Schools	4-7
2.1.1 The reporting status and comparison of schools in FI 2008 and FII 2008-9	4-7
2.2 Enrolment	7-21
Indicator 1: Students currently in schools by grade and sex	7-17
a) Enrolment in ECDs/PPCs by sex	7-8
b) Enrolment at primary level by grade and sex	8-12
c) Enrolment at lower secondary and secondary levels by grade and sex	12-17
Indicator 2: Students appearing in exams	17-19
Indicator 3: Student Attendance	20-21
2.3. School Management	21-26
Indicator 4: Number of schools which received the government fund within two months of each trimester	21-22
Indicator 5: Status of School Improvement Plan (SIP) and block grants	22
Indicator 6: Percentage of schools disclosing statement of accounts publicly	23
Indicator 9: Percentage of schools with completed social audit	23
Indicator 7: School operational calendar and average number of school opening days	23-24
Indicator 8: Participation of local people in school management	24-25
Indicator 10: Percentage of management transfer school to community	25
Indicator 11: Number of maintenance scholarship received by children	26
a) Primary level scholarships	26

2.4 School Service Delivery	26-28
a) Number of new ECD/PPC classes open and running	27
b) Number of new classroom constructed	27
c) Number of classroom rehabilitated and	27
d) Number of schools environment improved	27
e) Number of women and adult literacy classes delivered and the enrolment in women's and adult literacy classes by sex, Dalit, disadvantaged and Janajati	28
Part III	29-30
1. Teachers' information	29-30
1.1 Distribution of teachers by types of schools and level	29
1.2 Number of teachers by Dalit, Janajati and disabilities	29-30
1.3 Teacher Training	30
Annexes	

For more information on this Flash Report that is part of the Education Management Information System developed by MOE, please contact the Research and Educational Information Section at Department of Education, Sanothimi, Bhaktapur.

Part: I

1 Introduction

This report presents statistical information on the implementation of the Education for All programme. The report is particularly useful to policymakers as well as funding agencies, civil society organisations, private sector organisations and anyone interested in the development of the education sector.

The Department of Education (DOE) started the Flash process from the academic year 2004-05 (B.S. 2061) under its Education Management Information System (EMIS) where it collects school level educational data from all schools across the country twice a year. Based upon the collected data, the DOE produces three reports annually. While the Flash I report is a snapshot of data at the beginning of the academic year, the Flash II report is an assessment of the educational outputs and outcomes based on data at the end of the school year. Finally, the Consolidated report analyzes trends on key indicators over a number of years based on data from both Flash reports.

This publication is the tenth report in the series of Flash reports produced by the DOE.

2 The Flash II report

- Compares the educational status of main categories of students (e.g. Total, Dalit, Janajati¹ and Students with disabilities) in relation to their enrolment, retention and performance at individual grade between the Flash I (i.e. in the beginning of the academic year) and the Flash II (i.e. at the end of the academic year).
- Illustrates the disparity in school enrolment of children from the different social backgrounds as well as the ecological belts.
- Assesses the participation of local people from different strata of society in SMCs and PTAs in school management.
- Compares progress between targets and program implementation at macro level on the basis of school level data. This is measured by program indicators, including construction and other physical facilities, scholarship distribution, block grants, release of funds, school improvement plans (SIPs) and other performance related indicators.

3 Methodologies

- The data was recorded at the schools (on April 5, 2009), entered by each district into the Flash database and finally submitted to DoE by August 5, 2009.
- The data submitted by the districts were compiled and aggregated at the national database into the Flash database.
- An indicator-wise analysis was carried out by extracting the appropriate information from the Flash database.

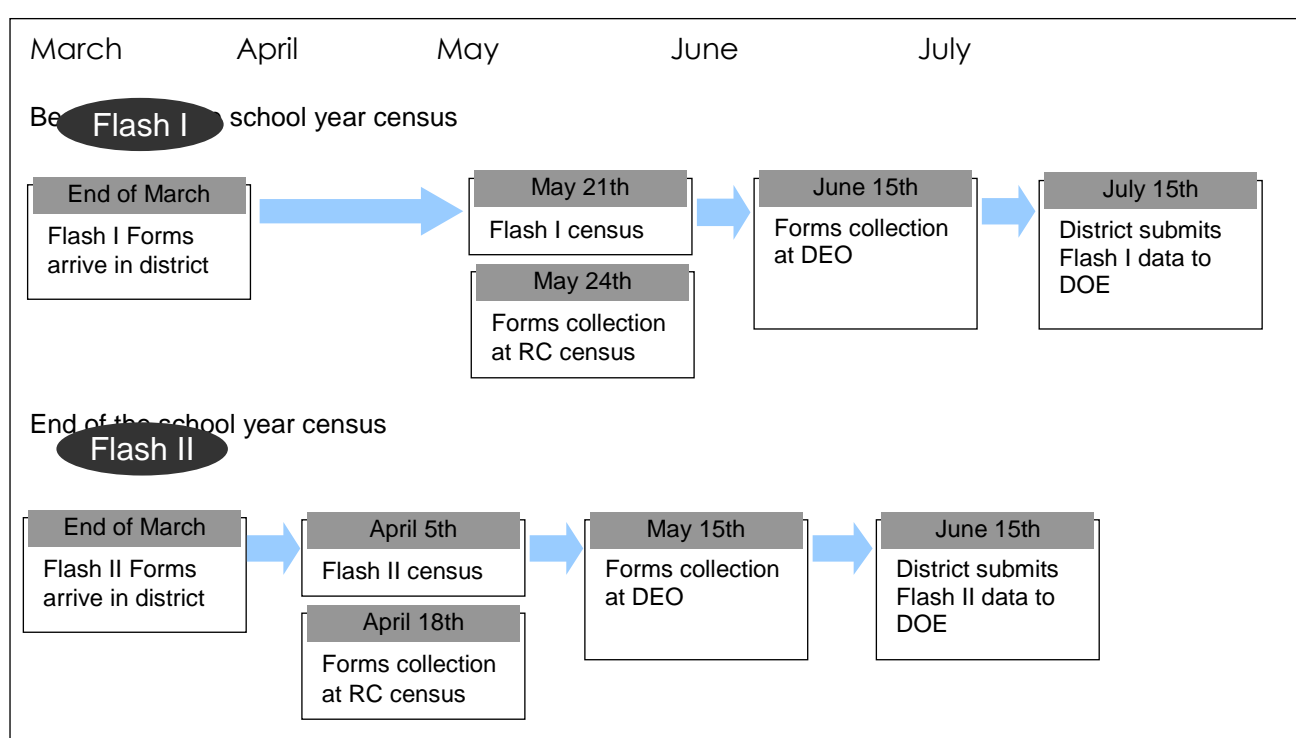

¹ Includes all 59 ethnic groups, which does not yield meaningful analysis for the purpose of targeting interventions. Discussion within the system on disaggregating the disadvantaged ethnic groups, such as those categorized by the Janajati Maha Sangh, is ongoing.

- The status of some output indicators (e.g. related to the non-formal education programme and the establishment of new ECDs) was analysed based on district-level progress reports from DEOs, i.e. not directly from schools.
- The reference date for Flash II data was 5th.April, 2009 (23 Chaitra, 2065). In Nepal, it is mandatory for all schools, including institutional (private)² schools and community (public) schools to fill in both the Flash I and II questionnaire.
- In this report the districts are taken as the unit of analysis. However, comparisons on enrolment and other specific aspects at the school level have been analyzed between Flash I and II. Some school-level data are available in DoE website: www.doe.gov.np

4 Timeline of Flash data collection

The Flash data collection process is implemented as shown in the following figure.

Figure: 1.1 Timeline of Flash data collection

5 Data covered in Flash II

Data in the following categories were covered in the Flash II school census:

1. Students currently in school by grade, gender, Dalit, Janajati and disabilities,
2. Number of participants enrolled in women literacy classes,
3. Enrollment in adult literacy classes by gender,
4. Percentage of schools receiving funds within two months of the beginning of each trimester,

² In practice, data related to institutional (private) schools have not been fully captured by the EMIS.

5. Percentage of schools with SIP,
6. Percentage of schools disclosing statements of accounts publicly,
7. School operational calendar (opening days),
8. Percentage of schools that completed social audit,
9. Number of community-managed schools,
10. Number of maintenance scholarships received by students,
11. Number of new classroom constructed and rehabilitated,
12. Number of school environment improved,
13. Number of schools that received block grants,
14. Number of schools completing SIP for the first time, and
15. Teacher training information.

VDC/District level information

1. Number of new ECD/PPCs open and running,
2. Number of Women's Literacy Classes delivered, and
3. Number of Adult literacy classes delivered and others.

6 Reliability of the data

The responsibility for filling in the Flash II questionnaire lies with each individual school in consultation with the School Supervisor and Resource Person. The Head Teacher (HT), School Management Committee (SMC) Chair person and the School supervisors/Resource persons scrutinize the completed questionnaires before submitting it to the DEOs. Before approving the forms it is their responsibility to check the reliability of the data. However, the issue of assuring data-quality is strictly related with how schools have owned and used (e.g. for SIP and demanding resources) them. It has been the experience that increasing number of schools has made available more consistent and reliable data over the years.

In order to minimize reporting errors, maintaining the data quality and preventing inconsistency in the data, basic validation rules (such as to ensure that the enrolment related to Dalit and Janajati and number of scholarship recipients, etc does not exceed the total enrolment) are used in the Flash data entry software.

Part: II

1. Data analysis

This section presents statistical information on the following Flash II indicators with tables, graphs/figures and maps on the following aspects of school education.

- School information,
- Student enrolment,
- Student appearing in the final exam and retention during the school year,
- Scholarship,
- Involvement of local people in school management by social category,
- Functioning of schools,
- Physical and financial support to school,
- Teacher training information, and
- Others.

The indicators are analyzed based on the data of the total number of schools that reported to the Flash II census. The presentation compares progress between 5 development regions, 4 eco-belts and 75 districts within a school year³.

2. Flash II indicators and analysis

2.1 Schools

2.1.1 The reporting status and comparison of schools in FI 2008 and FII 2008-09

Table 2.1
Distribution of recorded schools by eco-zones, unit and levels, Flash I 2008

Eco-belts	Total School (Units)	Primary (Grades 1-5)	Lower secondary (Grades 6-8)	Secondary (Grades 9-10)	Higher secondary (Grades 11-12)
Mountain	3,839	3,811	1,030	541	120
Hill	16,084	15,986	4,798	2,774	640
Kathmandu Valley	2,121	2,100	1,441	1,104	298
Terai	9,112	9,027	3,367	2,097	498
Nepal	31,156	30,924	10,636	6,516	1,556

The table 2.1 above presents the total number of registered schools throughout the country in the beginning of the school year 2008-09. The total number of schools is 31,156. Of the total schools, 30,924 are primary, 10,636 are lower secondary, 6,516 are secondary and 1,556 are higher secondary⁴ level schools. This shows that 99.3% of total schools have primary grades, 34.1% have lower secondary grades, 20.9% have secondary grades and 5.0% have higher secondary grades. The distribution of schools by eco-belts shows that there are 3,839 schools

⁴ The total number of schools under the three levels adds to more than 100% because lower secondary schools running primary grades and the secondary schools running lower secondary and primary grades are double or triple counted in the number of schools presented.

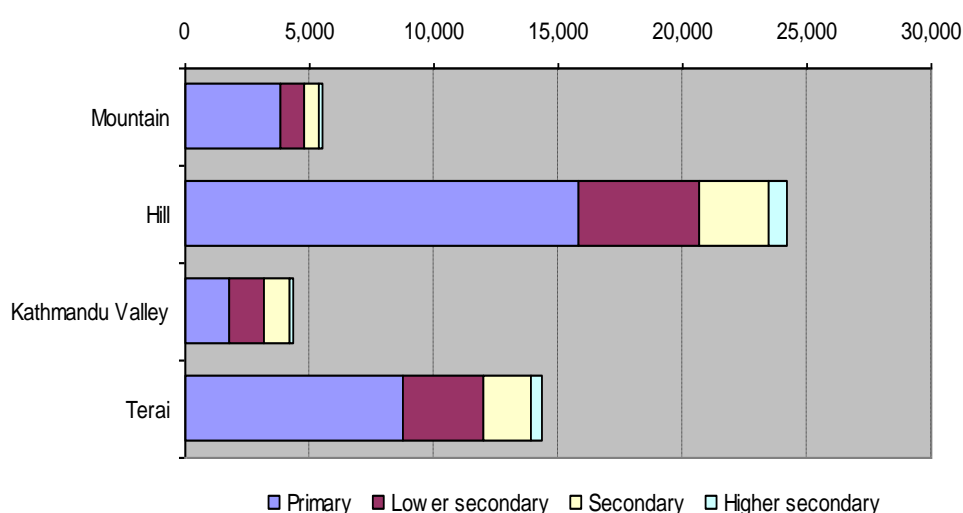

in Mountain, 16,084 in Hill, 2,121 in Kathmandu Valley and 9,112 in Terai respectively (Flash I 2008-09).

The table 2.2 and figure 2.1 below show the total number of schools reported at the end of the school year 2008-09 by unit and level. Compared with the total 31,156 recorded number of schools (table 2.1) at the beginning of the school year, 30,294 (97%) schools reported to the Flash II census at the end of the school year. Compared to the total number of schools in the beginning of the school year (Flash I, 2008-09), some districts have reported a few additional schools at the end of the school year (Flash II, 2008-09). Altogether 21 districts have reported additional schools in Flash II than at the beginning of the school year. Similarly, in 32 districts⁵ not all registered schools are reported to Flash II census in time (See Annex: I). Mostly, the non-reported schools in Flash II census are from the districts of Terai, Mountain belts and Kathmandu Valley. A comparison by school type shows that most of the non-reported schools are institutional schools.

Table 2.2
Number of schools reported by level and unit, Flash II 2008-09

Eco-belts	Number of schools reported in unit	Number of schools reported by level				Number of schools reported both in Flash I and Flash II school Census 2008-09	Percentage of schools reported both in Flash I and Flash II school Census 2008-09
		Primary	Lower secondary	Secondary	Higher secondary		
Mountain	3,824	3,795	1,012	538	148	3,738	97.8
Hill	15,900	15,803	4,878	2,741	748	15,462	97.2
Kathmandu Valley	1,792	1,781	1,348	1,047	170	1,606	89.6
Terai	8,778	8,714	3,249	1,909	440	8,140	92.7
Total	30,294	30,093	10,487	6,235	1,506	28,946	95.6

Figure 2.1
Number of schools reported in Flash II 2008-09 by level and unit

Out of the total 30,294 schools that reported to Flash II, 28,946 (96%) schools also reported to Flash I. It indicates that 96% of the total school in the beginning of the school year 2008-09

⁵ Particularly the districts: Kanchanpur, Bara, Kailali, Siraha, Sunsari, Parsa, Makwanpur, Achham, Jhapa, Baitadi, Dhanusha, Saptari, Lalitpur, Udayapur, Sarlahi, Doti, Kathmandu, Kapilbastu, Dhading and Morang have a high number of non-reporting schools to Flash II.

have reported at the end of the same school year. The reporting of schools was highest in Mountain eco-belt with 98% of schools reporting in both Flash I and II, while it was lowest in Kathmandu Valley with only 90% of schools reporting in both school censuses.

Table 2.3 below shows the number of religious schools by types and level. Since the beginning of the school year 2006-07 the DOE initiated to mainstream the education activities in religious schools in the country. To this effect, all religious schools need to report to DEOs in the same way as any other recognized schools in the countries, including the Flash I and II questionnaires. In return, DEOs provide support to these religious schools in the same way as other schools in the country.

A total of 630 religious schools reported to Flash II at the end of the school year. Out of them 627 schools have primary, 43 lower secondary, 14 secondary and 6 higher secondary levels. Compared to the beginning of the school year (615 religious primary schools) the reporting of religious primary schools has increased at the end of the school year. Madarasa schools are mainly found in the Terai belt, Gumbas mainly in Hill and Mountain belts and Ashram mainly in Hill and Terai belts (See Annex: I).

Table 2.3
Number of reported schools by type and level, Flash II 2008-09

Religious Schools	Primary	Lower Secondary	Secondary	Higher secondary
Madarasa	540	30	9	5
Gumba/Vihar	60	2	0	0
Ashram/Gurukul	27	11	5	1
Total	627	43	14	6

The district-wise status shows that the Madarasa schools are reported in Arghakhanchi, Lamjung, Palpa, Salyan, Surkhet, Syangja, Udayapur, Kathmandu, Banke, Barabardiya, Dangdhanusha, Jhapa, Kapilbastu, Mahottari, Morang, Nawalparasi, Parsa, Rautahat, Rupandehi, Saptari, Sarlahi, Siraha and Sunsari districts. Similarly, Gumba schools reported in Dolakha, Mustang, Sankhuwasabha, Solukhumbu, Taplejung, Ilam, Kaski, Kavrepalanchok, Okhaldhunga, Ramechhap, Udayapur, Kathmandu, Rautahat and Sunsari districts. Finally, Aashram schools are reported in Sankhuwasabha, Solukhumbu, Taplejung, Ilam, Myagdi, Panchthar, Kathmandu, Banke, Chitwan, Jhapa, Rupandehi and Sunsari districts (See Annex: I).

The table 2.4 below shows the total recorded number of ECD/PPCs running as a community-based and school-based (both in community schools and institutional schools) at the beginning of the school year and the reported number of ECD/PPCs at the end of the school year.

Table 2.4
Number of ECD/PPCs recorded and of them reported in Flash II 2008-09

Eco-belts	Recorded number of ECD/PPCs in 2008	Reported number of ECD/PPCs by types		
		Community and School based ECD/PPCs	Institutional schools' PPCs	Total
Mountain	1,912	1,610	88	1,698
Hill	9,838	8,136	1,002	9,138
Kathmandu Valley	1,627	431	1,154	1,585
Terai	10,282	5,301	1,221	6,522
Total	23,659	15,478	3,465	18,943

Out of the total 23,659 recorded number of ECD/PPCs (Table 2.4), almost 18,943 ECD/PPCs reported to Flash II, of this 15,478 were community- and school-based ECD/PPCs and 3,465 were institutional school-based PPCs. The analysis shows that compared to the total recorded ECD/PPCs, the level of reporting, specially of community-based ECDs and institutional school-based PPCs is relatively low (72%). Mostly the districts - Lalitpur, Mahottari, Chitwan, Dang, Banke, Parsa, Siraha, Doti, Rupandehi, Dhading, Dhanusha, Bardiya, Sunsari, Kapilbastu, Kanchanpur, Jhapa, Saptari, Kailali, Sarlahi and Morang had a low reporting with respect to ECD/PPCs (See Annex: II). It indicates that the mother schools of the community-based ECDs are not very keen on collecting the Flash census data for their relevant ECDs.

2.2. Enrolment

Indicator 1: Students currently in schools by grade and sex

a) Enrolment in ECDs/PPCs by sex

The following table 2.5 presents the total number of children enrolled at the beginning as well as the end of the school year in ECD/PPCs. The comparison on ECD/PPCs enrolment within the academic year shows that out of total 881,247 students in the beginning of the school year, 655,387 (74%) children were reported at the end of the school year.

Table: 2.5
ECD/PPCs enrolment by sex and Eco-belt, Flash I 2008 and Flash II 2008-09

Eco-belts	Enrolment in F I 2008			Enrolment in F II 2008-09		
	Girls	Boys	Total	Girls	Boys	Total
Mountain	24,085	26,042	50,127	21,350	21,487	42,837
Hill	145,858	156,354	302,212	123,453	130,100	253,534
Kathmandu Valley	46,777	53,629	100,406	37,942	42,095	80,016
Terai	198,273	230,229	428,502	131,679	147,321	279,000
Total	414,993	466,254	881,247	314,424	341,003	655,387

The comparison on enrolment between the beginning of the school year and at the end of the school year follows the low reporting number of ECD/PPCs. Because of the low number of reporting ECD/PPCs in all eco-belts, the enrolment figures have also decreased at the end of the school year but the districts - Gulmi, Palpa, Sankhuwashava, Pyuthan, Khotang, Salyan, Dolpa, Ramechhap, Taplejung and Kalikot show a higher number of ECD/PPCs at the end of the academic year (See Annex II).

An enrolment ratio analysis shows that at the beginning of the school year, the ratio of ECD/PPCs and children was 1:37, whereas it is 1:35 at the end of the school year. If the ratio of 1:35 is applied for the non-reported ECD/PPCs (in total 4,716 ECD/PPCs), the total number of children at the end of the school year would be 818,550. This indicates that 7% of the children registered at the beginning of the school year did not continue up to the end of the school year.

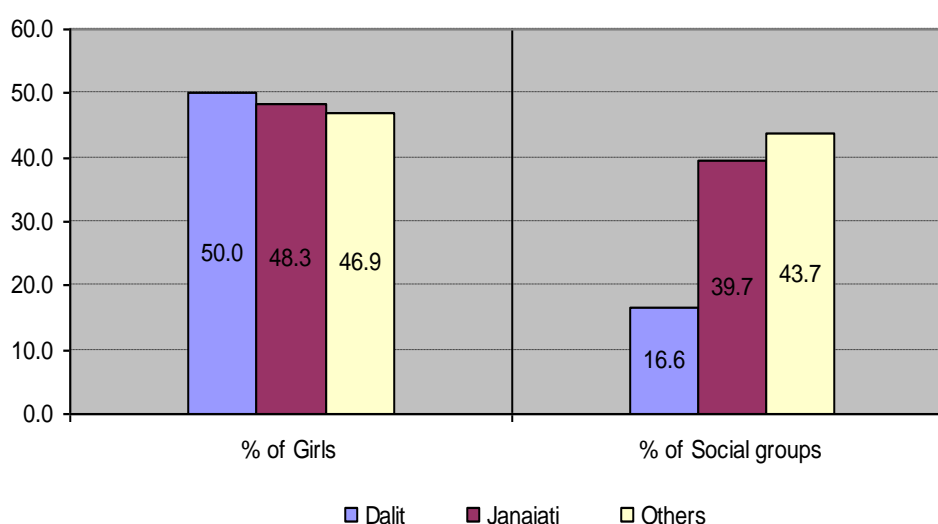

Table 2.6 and the figure 2.2 below present the share of girls, Dalit and the Janajati enrolment in the total enrolment of ECD/PPCs at the end of the school year. The figure shows that out of the total number of children there were 48% girls, 17% Dalit, 40% Janajati and 44% children other than the Dalit and Janajati in ECD/PPCs. Interestingly, the figure shows that the share of Dalit

girls is higher than the total and Janajati students. It indicates that there has not been a significant change in the share of girls, Dalit and Janajati enrolment as compared to their share of enrolment at the beginning of the school year (See Annex II).

Table 2.6
ECD/PPC enrolment by sex, Dalit and Janajati, Flash II 2008-09

Students	Enrolment in Flash II 2008-09			% of girls	% of Dalit and Janajati
	Girls	Boys	Total		
Dalit	54,236	54,339	108,575	50.0	16.6
Janajati	125,740	134,377	260,091	48.3	39.7
Others	134,448	152,287	286,721	46.9	43.7
Total	314,424	341,003	655,387	48.0	100

Figure 2.2
Share of girls, Dalit and Janajati in total students of ECD/PPCs, Flash II 2008-09

b) Enrolment at primary level by grade and sex

Out of the total recorded number of schools 31,156 at the beginning of the school year, 30,294 schools reported at the end of the school year to Flash II. The enrolment figure of 4.782 (Table: 2.7) million at primary level given in the Flash I report is based on 31,156 schools at the beginning of the school year and the average school student ratio was 1:155 at primary level. Similarly, the enrolment figure of 4.828 million (Table 2.8) is based on the 30,294 schools that reported to Flash II at the end of the school year.

The grade-wise share of girls' enrolment shows a small change at the end of the school year. It suggests that compared to the grade wise children in the beginning of the school year in total 46,299 (1%) additional children are reported at the end of the school year at primary level. Figure 2.3 also presents the comparison on enrolment between beginning and the end of the school year 2008-09. The grade wise composition on enrolment between Flash I and Flash II shows almost 1% children has increased in grade 1, whereas in other grades the percentage has not changed at the end of the school year (See Annex III_A). There is a significant large proportion of primary level children in Grade 1 in the both school censuses 2008-09 with 31% and 32% in total primary children. Although the enrolment pattern in Flash I and II is the same at the national level, there are 36 districts that have experienced a decrease in enrolment at the

end of the school year. The rest of the districts show a slight increase in enrolment at the end of the school year.

Table 2.7

Total students in Flash I 2008 and the percentage of grade wise enrolment in total enrolment at primary level

Grade	Enrolment Flash I 2008			% of girls	Share of student in total
	Girls	Boys	Total		
1	733,493	751,902	1,485,395	49.4	31.1
2	477,150	480,173	957,323	49.8	20.0
3	440,080	443,149	883,229	49.8	18.5
4	393,254	402,820	796,074	49.4	16.6
5	321,402	338,890	660,292	48.7	13.8
Total	2,365,379	2,416,934	4,782,313	49.5	100

Source: Flash I, 2008

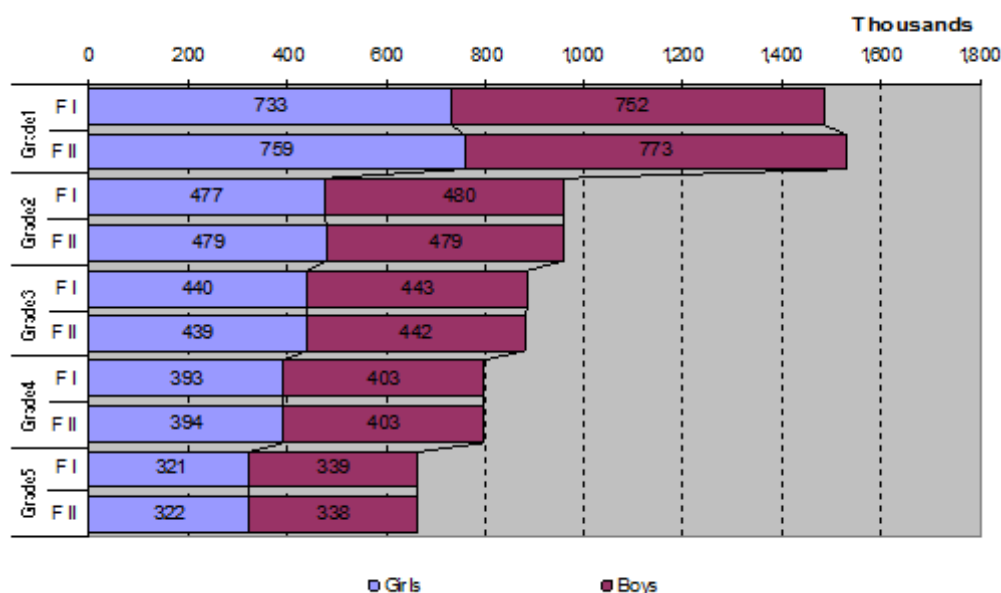

Table 2.8

Total student reported in Flash II 2008-09 and the percentage of grade wise enrolment in total enrolment at primary level

Grade	Enrolment Flash II 2008-09			% of girls	Share of student in total
	Girls	Boys	Total		
1	759,289	772,519	1,531,808	49.6	31.7
2	478,758	479,278	958,036	50.0	19.8
3	439,003	441,945	880,948	49.8	18.2
4	394,205	403,149	797,354	49.4	16.5
5	322,004	338,480	660,484	48.8	13.7
Total	2,393,259	2,435,371	4,828,630	49.6	100

Figure 2.3

Number of students in Flash I 2008 and Flash II 2008-09 at primary level

The tables 2.9 and 2.10 below show the number of Dalit and Janajati children and the grade wise share of enrolment in total enrolment at primary level. The share of Dalit and Janajati children at primary level has not changed significantly at the end of the school year as compared to the beginning of the school year. The district level analysis shows that it varies by district to district whether there has been an increase or decrease of enrolment. Compared to the beginning of the school year, some of the districts - Jhapa, Siraha, Saptari, Dhanusha, Achham, Dhading, Doti, Kapilbastu, Sarlahi, Morang, Sunsari, Parsa, Kailali, Kathmandu and

Lalitpur show a slight decrease in the share of Dalit and Janajati children at the end of the school year in total enrolment (See Annex: VI & V).

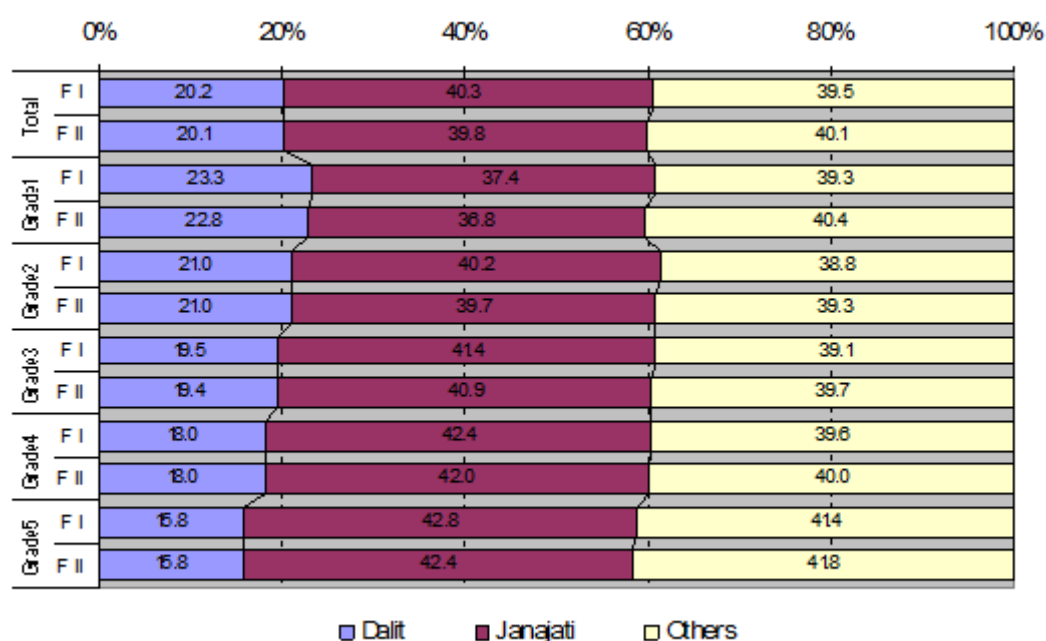

Table 2.9
Dalit student at primary level by grade and sex and the percentage of grade wise enrolment in total enrolment, Flash I 2008 and Flash II 2008-09

Grade	Enrolment in Flash II 2008-09			Share of Dalit in total enrolment	
	Girls	Boys	Total	In Flash I	In Flash II
1	175,104	174,467	349,571	23.3	22.8
2	100,563	100,203	200,766	21.0	21.0
3	84,533	86,700	171,233	19.5	19.4
4	69,795	73,921	143,716	18.0	18.0
5	48,903	55,711	104,614	15.8	15.8
Total	478,898	491,002	969,900	20.2	20.1

Table 2.10
Janajati enrolment at primary level by grade and sex and the percentage of grade wise enrolment in total enrolment, Flash I 2008 and Flash II 2008-09

Grade	Enrolment in Flash II 2008-09			Share of Janajati in total enrolment	
	Girls	Boys	Total	In Flash I	In Flash II
1	278,268	285,775	564,043	37.4	36.8
2	189,780	190,363	380,143	40.2	39.7
3	181,676	178,807	360,483	41.4	40.9
4	168,581	166,380	334,961	42.4	42.0
5	139,914	140,297	280,211	42.8	42.4
Total	958,219	961,622	1,919,841	40.3	39.8

Figure 2.4
Share of enrolment by Dalit and Janajati at primary level in total enrolment in Flash I 2008 and Flash II 2008-09

The table 2.11 and the figure 2.5 below show the share of enrolment by sex in total enrolment and GPI in both Flash I and II by grade. The analysis indicates an increasing trend of girls'

enrolment, namely from 49.5% with a 0.98 GPI at the beginning of the school year to 49.6% with a 0.98 GPI at the end of the school year (See Annex III). It shows that the girls' retention is slightly higher than the retention of boys.

Table 2.11
Grade wise share of enrolment in Flash I 2008 and Flash II 2008-09 by sex and GPI

Grade	Share of enrolment and GPI in Flash I 2008 by grade			Share of enrolment and GPI in Flash II 2008-09 by grade		
	Girls	Boys	GPI	Girls	Boys	GPI
1	49.4	50.6	0.98	49.6	50.4	0.98
2	49.8	50.2	0.99	50.0	50.0	1.00
3	49.8	50.2	0.99	49.8	50.2	0.99
4	49.4	50.6	0.98	49.4	50.6	0.98
5	48.7	51.3	0.95	48.8	51.2	0.95
Total	49.5	50.5	0.98	49.6	50.4	0.98

Figure 2.5
Grade wise Gender Parity Index (GPI) at primary level in Flash I 2008 and Flash II 2008-09

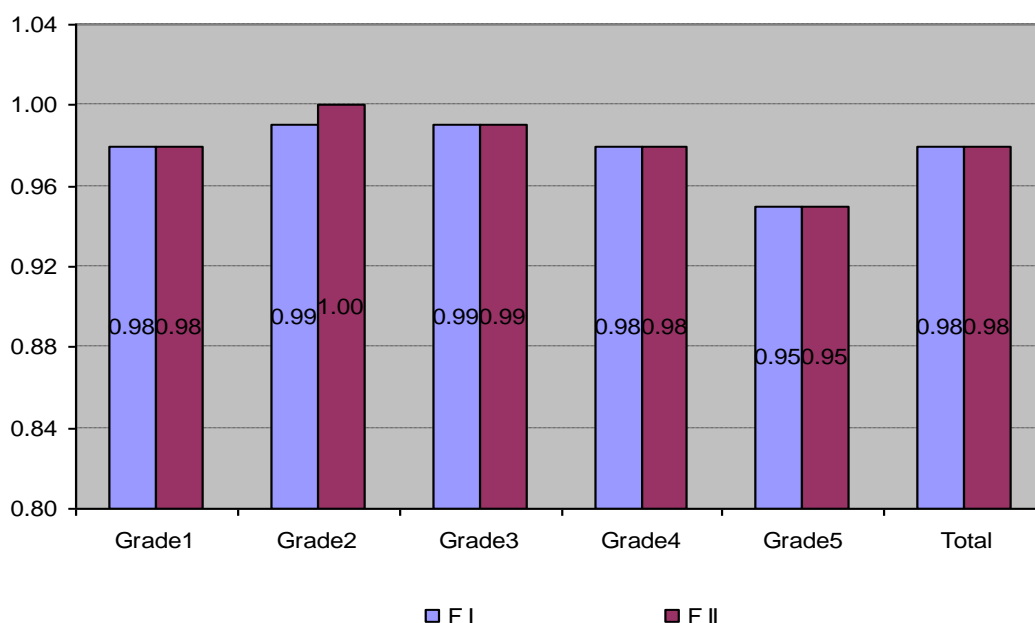

Table 2.12 and the figure 2.6 below present the number and percentage of students enrolled by type of schools at the end of the school year. The share of enrolment in community schools and institutional schools at primary level is 90.3% and 9.7% respectively.

Similarly, the share of girl students is higher (50.2%) in community schools, whereas the share of girls is low (43.3%) in institutional schools. This low share of girls in institutional schools is same as at the beginning of the school year.

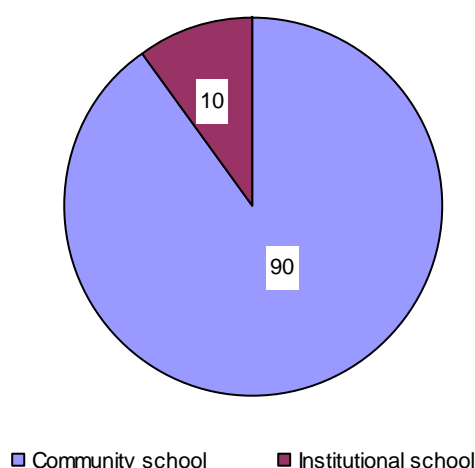

The share of children in institutional schools at the end of the school year has slightly decreased as compared to the beginning of the school year. It shows the less reporting of institutional schools in many districts at the end of the school year (Flash II 2008-09), resulting in the decrease of enrolment. It is interesting to note that the share of girls' in institutional

schools is relatively lower than in other types of schools. It could be the attitude of parents on choosing of education for daughter and son (See Annex III_A-C & VI).

Table 2.12
Number and percentage of enrolment at primary level by school type and sex, Flash II 2008-09

School types	Girls	Boys	Total	% in total enrolment	% of Girls
Community	2191156	2170378	4361534	90.3	50.2
Institutional	202103	264993	467096	9.7	43.3
Total	2393259	2435371	4828630	100	49.6

Figure 2.6
Share of enrolment at primary level by school type, Flash II 2008-09

The table 2.13 below shows the number of students by types of religious schools (Madarasa, Gumba and Ashram) at primary level. In total 77,843 students are reported enrolled in these types of schools; of this 73,716 (94.7%) are in Madarasa schools 2,138 (2.7%) are in Gumba schools and 1,989 (2.6%) are in Ashram schools at the end of the school year (See Annex:VIII_A-C)

A notable statistic is the uneven share of girls in these types of schools with 53% girls in Madarasa schools, 28% in Gumba schools and 36% in Asharam schools. The share of enrolment in these types of schools is almost 2% of total primary level national enrolment.

Table 2.13
Enrolment in Madarsa, Gumba and Ashram at primary level, Flash II 2008-09

Students	Madarasa	Gumba	Ashram	Total	% in total enrolment
Girls	39,242	588	715	40,545	2
Boys	34,474	1,550	1,274	37,298	2
Total	73,716	2,138	1,989	77,843	2

c) Enrolment at lower secondary and secondary levels by grade and sex

The enrolment figures related to the lower secondary and secondary levels presented in this report are based on the reported schools in the end of the school year to Flash II. Therefore, the enrolment figure of 1.499 million at the lower secondary level and 0.718 thousands at the

secondary level given in Flash II 2008-09 report (Table 2.14) is based only on reported schools in the school census of end of the school year 2008-09. The grade wise composition of students shows no significant change within the school year 2008-09. Although the enrolment pattern in Flash I and II is same, almost 2% students at lower secondary level have increased at the national level (See Annex: XVIII_A) .

The analysis shows that in the beginning of the school year at lower secondary and secondary levels the school student ratio was 1:138 and 1:110 respectively, where as these ratios are 1:143 and 1:115 in the end of the school year. It indicates the school student ratios at lower secondary and secondary levels have increased in the end of the school year.

Table 2.14
Total enrolment at lower secondary and secondary levels by grade and sex in Flash II and the percentage of grade wise enrolment in total enrolment , Flash I 2008 and Flash II 2008-09

Grade	Enrolment in Flash II 2008-09			Share of student in total enrolment	
	Girls	Boys	Total	In Flash I	In Flash II
6	265,687	283,240	548,927	36.3	36.5
7	236,619	252,824	489,443	32.9	32.6
8	222,702	241,858	464,560	30.8	30.9
Total 6-8	725,008	777,922	1,502,930	100	100
9	185,942	205,553	391,495	54.3	54.4
10	154,667	173,467	328,134	45.7	45.6
Total 9-10	340,609	379,020	719,629	100	100

The table 2.15 below shows the status of Dalit students at lower secondary and secondary levels in the beginning and end of the school year 2008-09. Compared to the beginning of the school year the number of Dalit students in the end of the school year has increased by 4% points at lower secondary level and increased by 2% points at secondary level.

Overall, compared to the beginning of the school year the share of Dalit enrolment in total enrolment at lower secondary level has slightly changed at the end of the school year 2008-09, however the grade wise share of Dalit enrolment in total enrolment has slightly changed in all grades (See Annex IX).

Table 2.15
Dalit enrolment at lower secondary and secondary levels by grade and the percentage of grade wise enrolment in total enrolment, Flash I 2008 and Flash II 2008-09

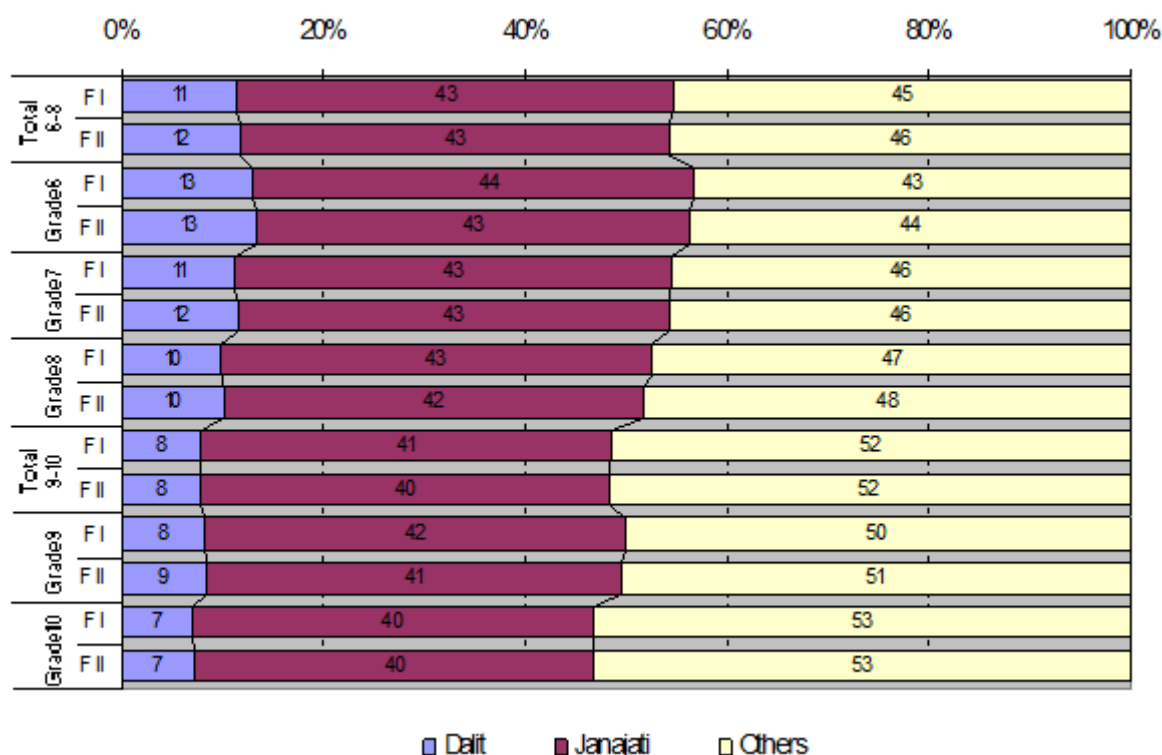

Grade	Enrolment in Flash II 2008-09			Share of Dalit in total enrolment	
	Girls	Boys	Total	In Flash I	In Flash II
6	34,192	38,805	72,997	13.0	13.3

9	14,763	18,467	33,230	8.3	8.5
10	10,279	13,582	23,861	7.1	7.3
Total 9-10	25,042	32,049	57,091	7.8	7.9

The table 2.16 below shows the status of Janajati students at lower secondary and secondary levels in the beginning and end of the school year 2008-09. Compared to the beginning of the school year the number of students at the end of the school year has slightly changed at both lower secondary and secondary levels. Overall, compared to the beginning of the school year the share of Janajati enrolment in total enrolment has slightly decreased in all grades in the end of the school year 2008-09 (See Annex X). Likewise, the figure 2.7 below shows the comparison on share of enrolment by Dalit and Janajati at lower secondary and secondary levels in Flash I and Flash II 2008-09 in total enrolment.

Table 2.16
Janajati enrolment at lower secondary and secondary level by grade and the percentage of grade wise enrolment in total enrolment, Flash I 2008 and Flash II 2008-09

Grade	Enrolment in Flash II 2008-09			Share of Janajati in total enrolment	
	Girls	Boys	Total	In Flash I	In Flash II
6	117,375	118,909	236,284	43.7	43.0
7	104,305	104,759	209,064	43.3	42.7

9	78,050	82,044	160,094	41.5	40.9
10	63,118	66,712	129,830	39.8	39.6
Total 9-10	141,168	148,756	289,924	40.7	40.3

Figure 2.7
Share of enrolment at lower secondary and secondary level by Dalit and Janajati in total enrolment, Flash I 2008 and Flash II 2008-09

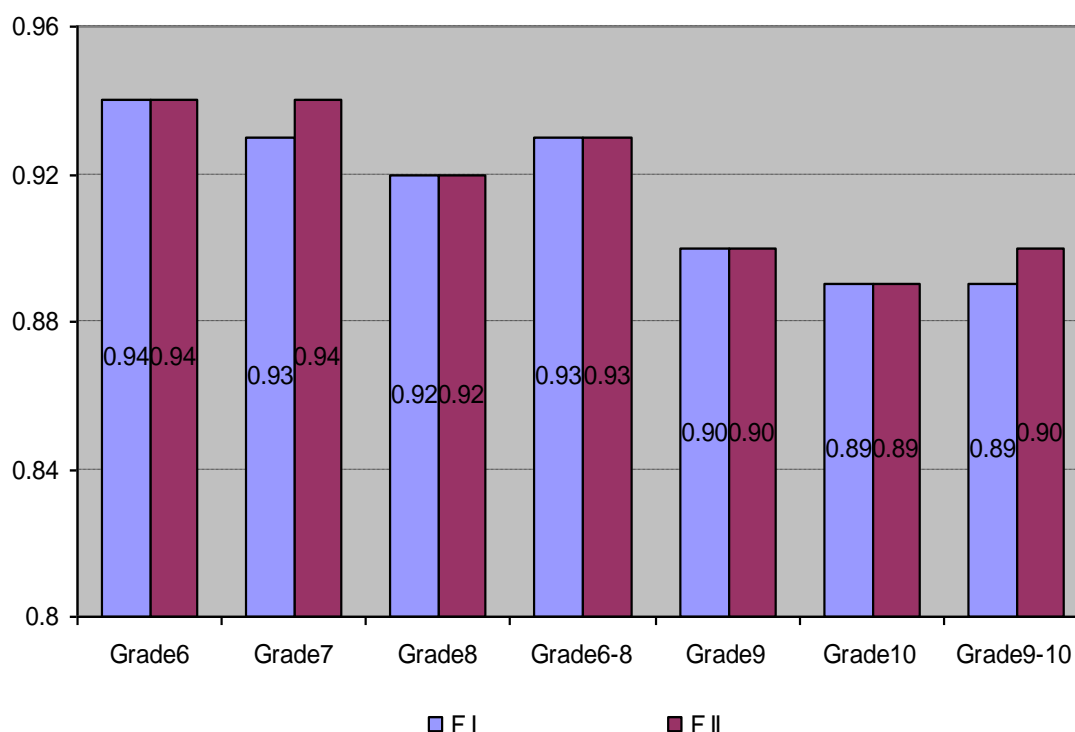

The table 2.17 and the figure 2.8 below show the comparison on the share of student and GPI in Flash I and II 2008-09 by grade in lower secondary and secondary levels. The analysis

indicates that the retention of girls has not decreased as compared to the total and boys students' retention (See Annex XI_A, XI_B).

Table 2.17
Grade wise share of enrolment in FI 2008 and FII 2008-09 by sex and GPI at lower secondary and secondary level

Grade	Share of girls enrolment and GPI in Flash I 2008 by grade			Share of girls enrolment and GPI in Flash II 2008-09 by grade

Figure 2.8
GPI at lower secondary and secondary levels in Flash I 2008 and Flash II 2008-09 by grade

The tables 2.18 and 2.19 and the figures 2.9 and 2.10 below present the number and percentage of students in total enrolment by types of schools at lower secondary and secondary levels at the end of the school year 2008-09.

The share of community schools and institutional schools at lower secondary level is 86.8% and 13.2% respectively. Similarly, at the secondary level the share of student is 85.0% and

15.0% in community schools and institutional schools. Likewise, the share of girls' student is comparatively low in institutional schools in both levels (See Annex: XVIII_A-C).

Table 2.18
Number and percentage of enrolment at lower secondary level by school type and sex, Flash II 2008-09

School types	Girls	Boys	Total	% in total enrolment	% of Girls
Community	639,395	665,014	1,304,409	86.8	49.0
Institutional	85,613	112,908	198,521	13.2	43.1
Total	725,008	777,922	1,502,930	100	48.2

Table 2.19
Number and percentage of enrolment at secondary level by school type and sex, Flash II 2008-09

School types	Girls	Boys	Total	% in total enrolment	% of Girls
Community	293,703	318,139	611,842	85.0	48.0
Institutional	46,906	60,881	107,787	15.0	43.5
Total	340,609	379,020	719,629	100	47.3

Figure 2.9
Share of enrolment at lower secondary level by school types, Flash II 2008-09

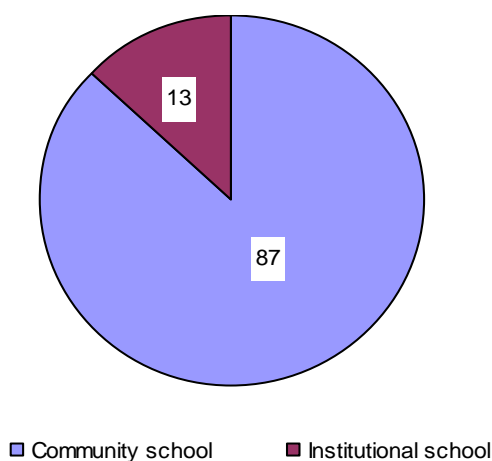

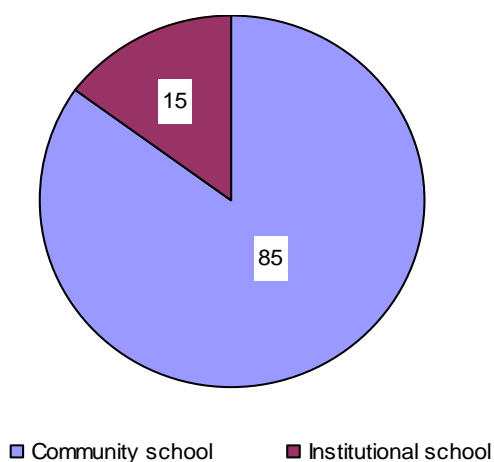

Figure 2.10
Share of enrolment at secondary level by school types, Flash II 2008-09

Compared in the beginning of the school year the share of enrolment in institutional schools has slightly increased in the end of the school year. It indicates there is a vital role of private sector on providing the access of lower secondary and secondary levels' education at local level, which is very much significant in the development of education in the country. The highest shares of girls' student at both levels are observed in community managed schools.

The table 2.20 below shows the number of students by types of religious schools (Madarasa, Gumba and Ashram) at lower secondary and secondary levels. Overall 1,891 and 564 students are reported in these types of schools at lower secondary and secondary levels. Out of the total students at lower secondary level there are 1,505 students in Madarsa, 13 in Gumba and 373 are in Ashram schools, whereas at secondary level there are 377 students in Madarsa and 187 are in Ashram schools. There were not any students reported in Gumba schools at secondary level (See Annex VII).

Table 2.20
Enrolment in Madarasa, Gumba and Aashram at lower secondary and secondary levels, Flash II 2008-09

Types of schools	Lower secondary			Secondary		
	Girls	Boys	Total	Girls	Boys	Total
Madarsa	833	672	1,505	200	177	377
Gumba	0	13	13	0	0	0
Ashram	133	240	373	46	141	187
Total	966	925	1,891	246	318	564

Indicator 2: Students appearing in exams

The main purpose of this indicator is to assess the effectiveness and performance of the education system by analysing its performance in terms of bringing students through a full school year and appeared in the annual examination.

Table 2.21 below shows the percentage of students that appeared in the final examination at the end of the school year compared with the total number of students who still attended school at the end of the school year. The table shows that in total 85.6% of all students appeared in the final examination (See Annex XII).

The exam appearance rate for grade one is 76.6% (Table 2.21) which is markedly lower than the exam appearance rate for the other grades. Hence, almost 23% of the children – or almost one of every four children - enrolled in grade one did not appear in the final exam at the end of school year.

Table 2.21
Percentage of student appeared in the final exam at primary level, Flash II 2008-09

Grade	% of students appearing in the exam		
	Girls	Boys	Total
1	76.6	76.6	76.6
2	88.1	88.1	88.1
3	89.8	89.9	89.8
4	90.8	90.6	90.7
5	91.2	91.1	91.2
Total	85.6	85.6	85.6

Tables 2.22 and 2.23 below show the percentage of Dalit and Janajati children who appeared in the final examination. Compared with the average exam appearance rate of all children which was 85.6%, the exam appearance rate of Dalit children at primary level is slightly lower at 84.0% (Table 2.22) but the exam appearance rate of Janajati children is higher at 86.9% (Table 2.23) (See Annex XIII & XIV).

Table 2.22
Percentage of Dalit student appeared in the final exam at primary level, Flash II 2008-09

Grade	% of students appearing in the exam		
	Girls	Boys	Total
1	75.8	76.6	76.2
2	87.1	87.3	87.2
3	88.9	88.7	88.8
4	88.5	88.8	88.7
5	89.6	89.4	89.5
Total	83.7	84.2	84.0

Table 2.23
Percentage of Janajati students appeared in the final exam at primary level, Flash II 2008-09

Grade	% of students appearing in the exam		
	Girls	Boys	Total
1	79.8	79.2	79.5
2	89.0	88.4	88.7
3	90.0	89.7	89.9
4	90.9	90.5	90.7
5	91.6	91.0	91.3
Total	87.2	86.6	86.9

Table 2.24 and the figure 2.13 below show the percentage of students appearing in final exams at lower secondary and secondary levels at the end of the school year. Overall, out of the total number of students still in school at the end of the school year 92.1% - with 92.7% girls and 91.6% boys - at lower secondary level appeared in the final examination. At the secondary level the overall figure was 93.1% consisting of 93.1% girls and 93.0% boys. In both lower secondary and secondary levels more than 91% of all girls and boys appeared in the final exam at the end of the school year in all grades (See Annex XV). Hence, one student out of every 10 students did not appear for the final examination.

The analysis shows that the effectiveness of the education system is more effective for students in lower secondary and secondary levels as compared with students in primary level.

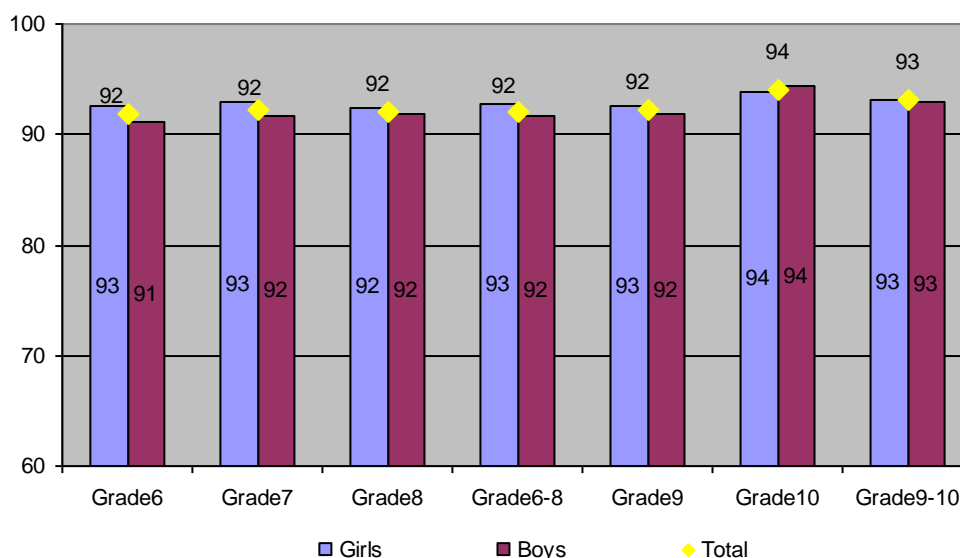

Table 2.24
Percentage of students appeared in the final exam at lower secondary and secondary levels, Flash II 2008-09

Grade	% of students appearing in the exam		
	Girls	Boys	Total
6	92.6	91.2	91.9
7	93.0	91.7	92.3
8	92.4	91.9	92.1
6-8	92.7	91.6	92.1
9	92.6	91.9	92.2
10	93.8	94.3	94.1
9-10	93.1	93.0	93.1

The gender disaggregated figures for lower secondary and secondary level reveal that the percentage of exam appearance for girls is slightly higher than boys. This is similar to situation at the primary level.

Figure 2.11

Percentage of students appeared in the final exam at lower secondary and secondary levels, Flash II 2008-09

Compared with the average exam appearance rate of all students both in lower secondary and secondary levels (92.1% and 93.1%), the exam appearance rate of Dalit (Table 2.25) students and Janajati (Table 2.26) are lower in both levels. Moreover, interestingly the exam appearance rate of girls is higher than the boys except for Dalit students at secondary level (See Annex: XVI & XVII).

Table 2.25

Percentage of Dalit students appeared in the final exam at lower secondary and secondary levels, Flash II 2008-09

Grade	% of students appearing in the exam		
	Girls	Boys	Total
6	89.6	89.1	89.3
7	90.5	90.0	90.2
8	90.0	90.1	90.1
6-8	90.0	89.7	89.8
9	88.8	90.3	89.6
10	91.5	93.6	92.7
9-10	89.9	91.7	90.9

Table 2.26

Percentage of Janajati students appeared in the final exam at lower secondary and secondary levels, Flash II 2008-09

Grade	% of students appearing in the exam		
	Girls	Boys	Total
6	94.5	90.5	92.5
7	92.5	91.2	91.8
8	92.1	91.5	91.8
6-8	93.1	91.0	92.1
9	91.9	90.3	91.1
10	93.9	93.8	93.8
9-10	92.8	91.9	92.3

Indicator 3: Student Attendance

This indicator assesses the regularity of the students, including how often the students attend daily teaching learning activities, and the effectiveness of the operation of schools. Data relating to student attendance was collected on three different dates (i.e. on B.S. 2065-02-31 (14 May 2008), 2065-06-12 (28 Sep. 2008) and 2065-11-14 (26 Feb. 2009) within the school year.

Table 2.27 below shows the student attendance on the three different dates during the school year. The grade wise and level wise average attendance rate is calculated by taking the total number of grade wise students attended on the respective date and compared with the total number of grade wise student at the beginning of the school year. The average attendance rate for all three dates is 75.1%, 79.6% and 80.3% at primary, lower secondary and secondary level respectively. Compared to the last school year (68.5%, 69.6% and 66.0% at primary, lower secondary and secondary levels), the average attendance rates have increased at all levels in the school year 2008-09, this indicates that the regularity of students in all grades have improved and if this trend is maintained this will bring a significant change in the internal efficiency of the school education system, contributing to each student.

The proportion of students' attendance increases steadily through the grades. Compared with other grades at primary level, the attendance rate in grade one is comparatively low on all three dates. The student attendance rates indicate that, at the primary level more than 23% students are not regularly attending to teaching and learning activities in the classroom (See Annex XVIII "A" to "D").

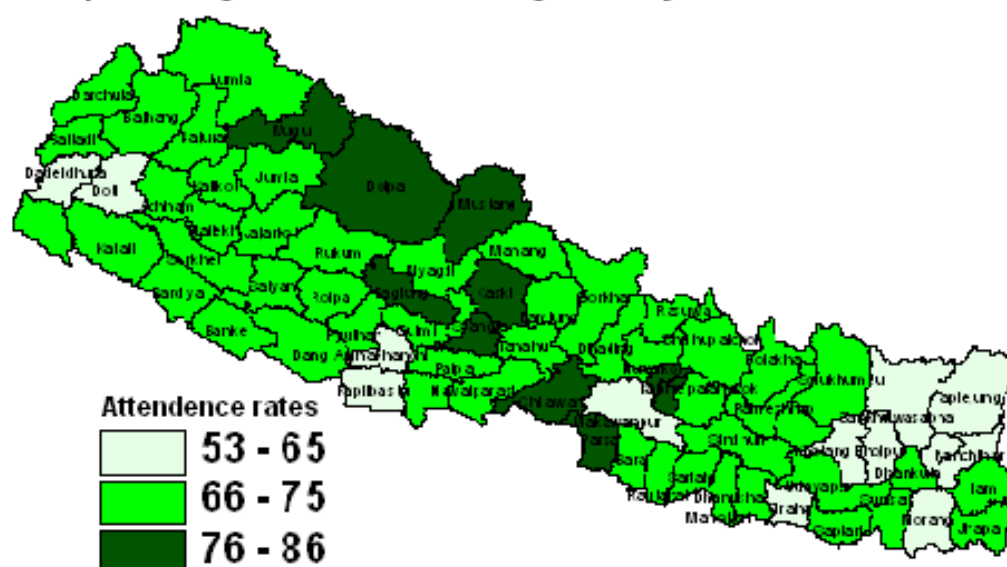

These relative low attendance rates might be a significant contributing factor to the low rates of retention and the low percentage of students appeared in the final examination. In addition, the low attendance rates might affect the overall internal efficiency (more than 28% of repetition rate in grade 1 in the last school year) of the overall education system.

Table 2.27
Average attendance rates of students by grade and level, Flash II 2008-09

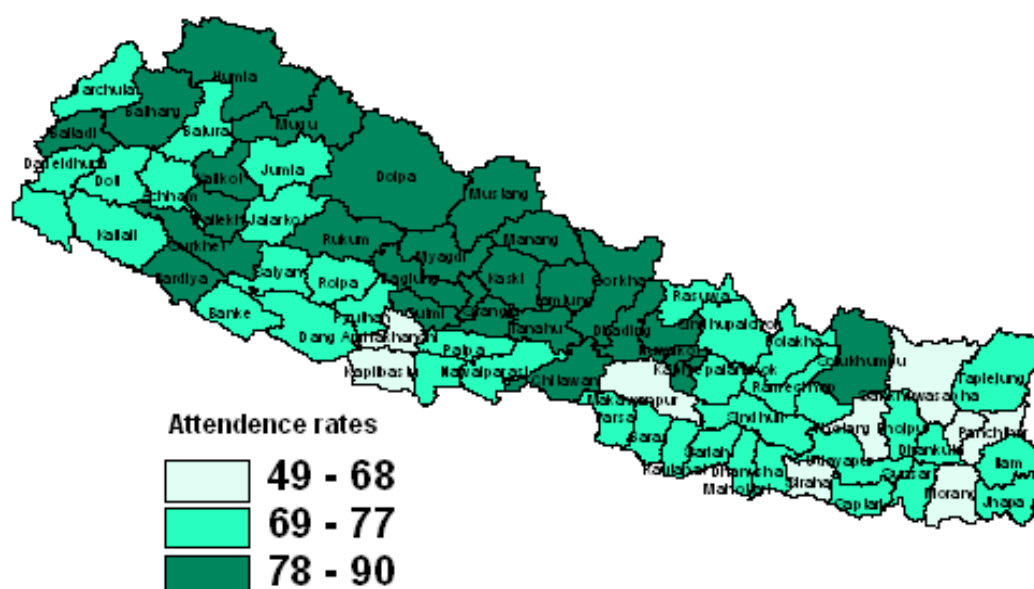

Grade	Percentage of attendance on			
	2065-02-31 (14 May 2008)	2065-06-12 (28 Sep. 2008)	2065-11-14 (26 Feb. 2009)	Average Attendance
1	69.9	69.5	71.5	70.3
2	75.6	75.3	76.9	75.9
3	76.9	76.7	78.0	77.2
4	77.4	77.0	78.5	77.6
5	78.8	78.6	80.1	79.1
1-5 (sub-total)	74.8	74.4	76.1	75.1
6	78.6	77.9	79.9	78.8
7	79.8	79.5	81.4	80.2
8	79.7	79.0	81.7	80.1
6-8 (sub-total)	79.3	78.7	81.0	79.6
9	79.9	79.7	82.2	80.6
10	82.9	82.4	73.2	80.1
9-10 (sub-total)	81.2	80.9	78.6	80.3
Total of 1-10	76.4	76.0	77.4	76.6

The following maps: 1 and 2 presents the district wise average attendance rates of grade 1 and over all primary level children on the three different dates during the school year 2008-09 by district.

Map:1 Average attendance rate in grade 1 by district, Flash II 2008-09

Map: 2 Average attendance rate at primary level by district, Flash II 2008-09

2.3. School Management

This section provides information on school management indicators, which are mainly related to school management tasks and service delivery tasks from District Education Office to the school.

Indicator 4: Number of schools which received the government fund within two months of each trimester

In the education sector the timely disbursement of government fund to schools has remained a critical issue in recent years. Table 2.28 shows the number of community schools that received

government fund from the DEOs within two months and after two months of the first and second trimesters. Out of the total 26,072 community schools (who answered the questions related to receiving government funds) at the end of the school year, 22,111 schools received the government grants in the first trimester. Likewise 21,996 schools in the second trimester received the government funds.

The government fund was received within two months by 10.0% schools in the first trimester and 22% in the second trimester. The majority of schools received the government funds in the third month of the trimester. It was 71.4% schools in the first trimester and 46.8% schools in the second trimester (See Annex XIX). Compared to the previous fiscal year, the percentages of schools that received government funds within two months have increased by almost 2% in first trimester and 3% in second trimester in the fiscal year 2008-09.

Table 2.28
Schools received the government fund within two months of each trimester, Flash II 2008-09

Trimester	Trimester period			
	1st and 2nd months	3rd. month	4th.month	Total
First trimester	2,597	18,610	904	22,111
Percentage	10.0	71.4	3.5	84.8
Second trimester	5,717	12,192	4,087	21,996
Percentage	21.9	46.8	15.7	84.4

Indicator 5: Status of School Improvement Plan (SIP) and block grants

Table 2.29 below shows the number and percentage of all community schools with SIPs and those receiving block grants. Out of the total 20,446 community schools responded the question, 76.4% reported that they have a School Improvement Plan (SIP) for their schools. Among the schools with a SIP, 26.0% of schools reported that they have prepared a SIP for the first time in the school year 2008-09 (2065). Out of total community schools with SIPs, 70.0% reported that they have received block grants. And by the reference date (April 5, 2009) of Flash II data collection out of the total 24,950 reporting community schools, 88.4% schools respond that they have received all types of government grant for this school year (See Annex:XX).

The reasons behind the relative low reporting for government funds could be low awareness of the different types of funding to the schools at the school level. For example the teacher salary is also a government fund and all teachers receive their salary in each trimester. In the future the District Education Offices should orient the relevant stakeholders at the school levels better about the funding modalities at local level.

Table 2.29
Status of School Improvement Plan and block grants (all community schools), Flash II 2008-09

Status of School Improvement Plan and block grants	Number of schools	Percentage of schools
Out of total community schools responded for SIP is 20,446	15,620	76.4
Out of total responded for SIP, that received block grant	10,869	69.6
Out of total responded for SIP that prepared SIP for the first time	4,057	26.0
Out of total 26,072 community schools, 24,950 schools responded that for all types of government funds and out of responded schools 22,064 received the government funds	22,064	88.4

Indicator 6: Percentage of schools disclosing statement of accounts publicly

Indicator 9: Percentage of schools with completed social audit

These two indicators assess the changes in terms of transparency and public accountability at the school level.

Table 2.30 below shows the number and percentage of schools that disclosed publicly their statement of accounts and performed a social audit. Compared with the total number of reported 26,072 community schools, 20,865 schools responded to these questions, and of these schools, 17,247 schools reported to have disclosed a statement of accounts to the public by the end of the first week of April 2008⁶. The percentage of schools that performed this activity is 82.7%. This percentage is significantly higher than the previous school year (68%). (See Annex XX).

Likewise, out of total reported community schools in total 21,408 schools responded for social audit at the school level, of this 17,548 (82.0%) schools have performed the social audit regarding all of their school level activities during the school year 2008-09, which is significantly increased as compared to the last school year (66.2%) (See Annex XX). Hence, it looks like there has been a positive development in terms of transparency and public accountability at the school level within this school year. However, it also shows that more awareness is still needed to make all schools comply with the regulation of disclose publicly a statement of accounts and perform a social audit.

Table 2.30

Schools having publicly disclosed accounts and having performed a social audit (all community schools), Flash II 2008-09

Schools	Number of schools	% in total community schools
Out of total reported 20,865 schools for this questionnaire that disclosed the statement of account publicly	17,247	82.7
Out of total reported 21,408 schools for this questionnaire that performed social audit	17,548	82.0

Indicator 7: School operational calendar and average number of school opening days

This indicator assesses the availability of school operational plan to run the daily teaching learning activities as well as the other functions that need to be accomplished efficiently at the school level.

Table 2.31

Schools having prepared an operational calendar by school type, Flash II 2008-09

Types of schools	Schools with calendar	% schools
Out of total 22,626 schools responded for this questionnaire, that prepared an operational calendar	17,388	76.8
Out of total 20,551 community schools responded for this, that prepared an operational calendar	15,555	75.8
Out of total 1,839 institutional schools responded for this questionnaire, that prepared an operational calendar	1,661	90.3

The table 2.31 above shows the number of schools, which prepared a school operational calendar in this school year. Compared with the total responded schools for the questions on a

⁶ All schools are required to disclose their statement of accounts to the public by April 2008.

school calendar, 76.8% schools prepared a school operational calendar. Similarly, by school type it can be seen that out of the total number of responded community schools, 75.8% have prepared a school operational calendar, whereas out of the total number of responded institutional schools 90.3% have prepared a school operational calendar (See Annex XX).

The table 2.32 below shows the average number of school opening days in the school year 2008-09 by the reference data of Flash II school census. In total 25,094 schools responded to this questionnaire. On the basis of the responses from these schools the average number of school opening days was 206 in this school year. Out of total 206 days, regarding the activities that have performed at schools, it can be seen that 187 days were for teaching and learning activities and 19 days were for extra curricular, exams and “other” activities (See Annex: XXI).

Table 2.32
Average number of school opening, teaching learning activities and extra-curricular days, Flash II 2008-09

Number of schools responded for school opening days	Average number of school opening days	School opening days for	
		Teaching learning activities	Extra curricular activities, exams and others
6,219	206	187	19

Indicator 8: Participation of local people in school management

This indicator presents the status of participation in school management by the local community. It presents the size and level of people participation in SMC (School Management Committee) and PTA (Parents Teacher Association) composition by sex, Dalit and Janajati at school level.

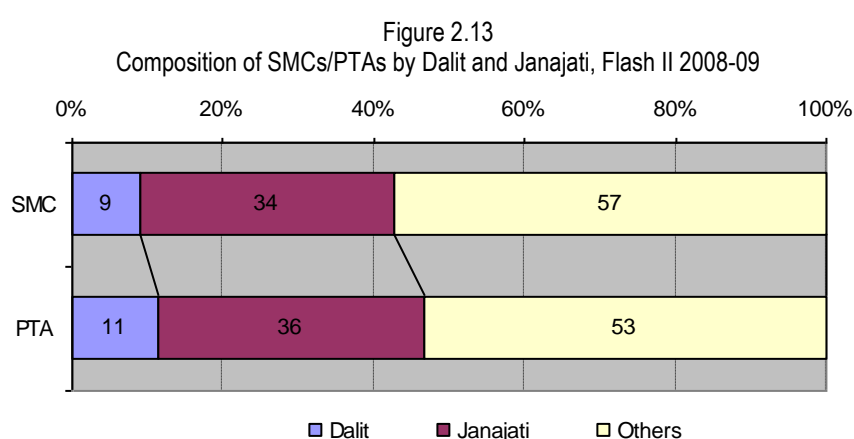

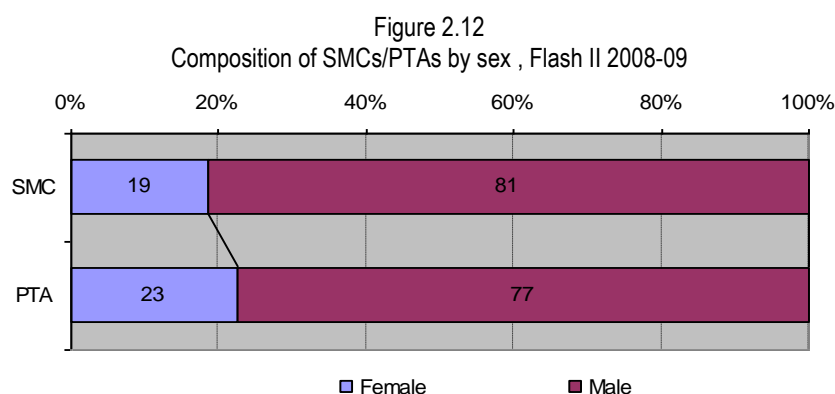

Table 2.33 and figures 2.14 and 2.15 below show the composition of SMC and PTAs by gender, Dalit and Janajati . Out of the total reported schools, 92% of schools responded that they have formed a SMC and 77% of schools have formed a PTA. The participation on SMC by sex, Dalit and Janajati shows 19% female members, 9% Dalit members and 34% are Janajati members. Similarly, the participation on PTA by sex, Dalit and Janajati is 23% female members, 11% Dalit members and 36% are Janajati members. Compared to the last school year, the level of participation of female is slightly higher in the school year by almost 1%. About 57% of both SMCs and PTAs are formed by consensus and the rest formed by an election process (See Annex XXII).

Table 2.33
Composition of SMC/PTA, Flash II 2008-09

Composition of SMCs/PTAs	School with SMC	School with PTA
Number of schools reported for the SMC and PTA formation questionnaire	27,927	23,243
% of Female members in	18.6	22.6
% of Dalit members in	9.1	11.3
% of Janajati members in	33.5	35.5
% of formed by Selection	57	56.9
% of formed by Election	40.9	40.7

The following graphs 2.14 and 2.15 also present the average status of community people’s participation on the School Management Committee and Parent Teacher Association in the

school year 2008-09. The district level status shows the share of female, Dalit and Janajati in SMC and PTA are vary form district to district.

Indicator 10: Percentage of school management transfer to community

This indicator assesses the progress of the process of handing over management of schools from the government over to the local community. Table 2.34 below shows the number of districts and the level of schools where the management of schools transfer programme has been implemented by the reference date of Flash II 2008-09 census. Altogether by the end of this school year, a total of 6,011 schools from 75 districts responded that their management is transferred to the local community (See Annex XX).

The DoE record of this programme shows a total of 8,702 levels of schools' management have transferred to the respective community by the end of the fiscal year 2008-09. The difference in the two sources⁷ of statistics might be due to different reference date for their data collection. However, it is also possible that some schools do not yet report themselves as community management⁷. But altogether, compared to last school year, it shows that the numbers of community managed schools are gradually increasing.

Table 2.34
Number of community schools' level that transfer their management to community, Flash II 2008-09

Number of districts	Number of community schools' level transfer to the community
By the reference date (5 th . April 2009 of Flash II 2008-09 census (in 75 districts)	6,011
DOE's internal records by the end of the fiscal year 2008-09 (in 75 districts)	8,702

⁷ A cross analysis between the two datasets could be done to check on this possibility.

Indicator 11: Number of maintenance scholarship received by children

The government has introduced scholarship schemes to encourage on regular attendance of students as well as to improve their retention; especially for girls, Dalits, disadvantaged groups and students with disabilities. Therefore, the scholarship schemes focus on different groups such as scholarships for all Dalit students, girls' scholarship for 50% of enrolled girls, scholarships for students with disabilities and scholarships for students from specific targeted population groups.

a) Primary level scholarships

Table 2.35 below shows the target and number of scholarships distributed to students in community schools in this school year at primary level by types of scholarships. The number of scholarships presented in the table 2.35 is based on the reporting by the reference date of Flash II school census. Compared to the total targets of the 50% girls', Dalit and disabled student scholarship schemes, the 50% girls scholarship, Dalit scholarship and the scholarship for disable children were distributed to 73.4%, 42.1% and 16.1% respectively by the end of the school year 2008-09. The relatively low achievement rate of the scholarship activity reported by schools to Flash II might be because the Flash II census did not capture all distributed scholarships as distribution might have been delayed and could continue until the end of the fiscal year (See Annex: XIII).

However, the low percentage of scholarship distribution by the reference date of Flash II census should be a matter of concern as scholarships amount might be disbursed to schools in the first trimester.

Table 2.35
Community schools' students, who received primary scholarships, Flash II 2008-09

Types of Scholarships	Targets	Number of students who received scholarship			% of students received scholarship
		Girls	Boys	Total	
50% girls	761,838	559,468	N.A.	559,468	73.4
Dalit	823,764	172,469	173,931	346,400	42.1
Scholarship for disable	18,267	1,494	1,444	2,938	16.1
Others	0	4,480	2,937	7,417	0.0

In addition to the government scholarship programmes, INGOs, NGOs and communities are also providing a number of scholarships throughout the country. Based on the reported number of scholarships, a total of 7,417 students have received a scholarship in this school year from an INGO, NGO, CBO or other local community organisations. It shows that the contribution of these organisations is about 1% of the total number of scholarships. However, Flash II does not collect data on the specific type and amount of scholarship from these organisations (See Annex: XXIII).

2.4 School Service Delivery

This section contains information on the Flash II output indicators that are mainly related to school service delivery. The main areas that government has focused on the supports of physical facilities, establishment of new ECD/PPCs and literacy programme at the school and community level.

a) Number of new ECD/PPC classes open and running

The table 2.36 below presents the status of new ECD/PPCs establishment in the FY 2008-09. The government had a target to establish a total of 4,750 new ECDs throughout the country in FY 2008-09. Based on the Status Report, 2009 submitted by 75 districts, all targeted number of ECDs was established as per the targets in all districts.

Table 2.36
Number of new ECD/PPCs classes open and running

	Total Targets	Achievement
New ECD centers opening	4,750	4,750

Source: Status report_2008-09 (DoE)

b) Number of new classroom constructed

c) Number of classroom rehabilitated, and

d) Number of schools environment improved

The improvement of physical facilities in schools includes the construction of new classrooms, rehabilitation of existing classrooms and improvement of school environments (including drinking water supply, sanitation and toilet facilities). The aim is to enhance the quality of classrooms, provide enough space to get all children in school and improving the surrounding of the schools like playground with fencing.

Table 2.37 below shows that the achievements by the reference data of Flash II 2008-09 census against the targets to improve the schools' physical facilities in the fiscal year 2008-09. Within the last fiscal year the government had targeted to construct 6,594 new classrooms, rehabilitate 2,928 classrooms, constructing drinking water facilities in 3,900 schools and separate toilets for girls and boys in 1,949 schools. Compared to the targets 5,243 (79.5%) classrooms were constructed, 2,094 (71.5%) classrooms were rehabilitated, 3,197 (82.0%) schools got a drinking water facility and 2,997 (153.8%) schools got separate toilets for girls' and boys by the reference date of Flash II 2008-09 census. It is possible that further progress will be achieved once the Status Reports from districts have been submitted to DoE.

However, it is worth noting the high achievement compared to the target on separate toilets construction for girls and boys. It might indicate a good community contribution towards this activity (See Annex XX).

Table 2.37
Targets and Progress on physical facilities, Flash II 2008-9

Physical works	Targets	Progress	% of progress against target
	Government	Government + other sectors	
New classroom construction	6,594	5,243	79.5
Classroom rehabilitation	2,928	2,094	71.5
Water facilities from external environment programme	3,900	3,197	82.0
Separate toilet construction for Girls and Boys	1,949	2,997	153.8

e) Number of women and adult literacy classes delivered and the enrolment in women's and adult literacy classes by sex, Dalit, disadvantaged Janajati

Table 2.38 shows the programme-wise targets and achievements in non-formal education in the fiscal year 2008/09 based on the 31 districts who had submitted the Status Report by August second week. A total of 720 Women literacy classes I, 900 Women literacy classes II, 293 School Outreach Programme (SOP) and 102 Flexible Schooling Programme (FSP) were targeted to be implemented in the 31 districts⁸ in this fiscal year. Compared to the targets there is 100% achievement in all programmes. In total 32,400 women benefited from the Women literacy classes I&II in the 31 districts.

Table 2.38
Targets and Progress on Non-formal programme

Programme	Target (Classes)	Progress (Classes)	number of participants	% in Progress
Women literacy class I	720	720	14,400	100
Women literacy class II	900	900	18,000	100
School outreach programme (SOP)	293	293	NA	100
Flexible schooling programme (FSP)	102	102	NA	100

Source: Status report_2008-09 (DoE)

⁸ The districts submitted their status reports to the DoE by second week of august 2009 are; Achham, Arghakhanchi, Baglung, Baitadi, Bajhang, Bajura, Banke, Bara, Bardiya, Bhaktapur, Bhojpur, Chitwan, Dadeldhura, Dailekh, Dang, Darchula, Dhading, Dhankuta, Dhanusha, Dolakha, Dolpa, Doti, Gorkha, Gulmi, Humla, Ilam, Jajarkot, Jhapa, Jumla, Kailali, Kalikot, Kanchanpur, Kapilbastu, Kaski, Kathmandu, Kavrepalanchok, Khotang, Lalitpur, Lamjung, Mahottari, Makwanpur, Manang, Morang, Mugu, Mustang, Myagdi, Nawalparasi, Nuwakot, Okhaldhunga, Palpa, Panchthar, Parbat, Parsa, Pyuthan, Ramechhap, Rasuwa, Rautahat, Rolpa, Rukum, Rupandehi, Salyan, Sankhuwasabha, Saptari, Sarlahi, Sindhuli, Sindhupalchok, Siraha, Solukhumbu, Sunsari, Surkhet, Syangja, and Chitwan.

Part III

1. Teachers' information

1.1 Distribution of teachers by types of schools and level

This section contains the information related to the status of teachers by sex, Dalit and Janajati, training and types of schools.

Table 3.1 below shows the total number of teachers by types of schools and levels at the end of the school year. The figures are based on the number of teachers reported in Flash II. The total number of teachers is counted by including those working in an approved position, rahat teacher position and those teachers appointed by the local community. The statistics reveal a total of 135,240 teachers at primary level, 35,194 teachers at lower secondary level and 26,197 teachers at secondary level. Out of the total number of teachers by level 22,685 at primary level, 9,154 at lower secondary level and 8,768 at secondary level teachers were reported in institutional schools.

The percentage of female teachers is 34.7%, 16.4% and 8.4% at primary, lower secondary and secondary level respectively in total number of teachers. It is also clear from the statistics that institutional schools have a much higher number of female teachers than community schools. It indicates that more than 62% female teachers are reported in institutional schools where as this share is very low in the community schools at all levels (See Annex: XXIV).

Table 3.1
Distribution of teachers by types of schools by level, Flash II 2008-09

School types	Levels								
	Primary			Lower secondary			Secondary		
	Total	Female	Male	Total	Female	Male	Total	Female	Male
Community schools	112,555	39,080	73,475	26,040	4,277	21,763	17,429	1,467	15,962
Institutional schools	22,685	14,143	8,542	9,154	3,283	5,871	8,768	1,422	7,346
Total	135,240	53,223	82,017	35,194	7,560	27,634	26,197	2,889	23,308

1.2 Number of teachers by Dalit, Janajati and disabilities

The following tables 3.2 and 3.3 show the number and percentage of teachers by Dalit and Janajati working at all levels of school education. Based on the reported figures to Flash II, it shows that the participation of Dalits, Janajatis and Disable people in the teaching profession is relatively low in comparison with their share of the total population at all levels.

In total, the share of Dalit teachers is 3.5%, 2.6% and 1.8% at primary, lower secondary and secondary levels respectively. Similarly, the share of Janajati teachers is 24.5%, 18.5% and 13.5% at primary, lower secondary and secondary level respectively. Compared to the share of

Dalit and Janajati the share of Disable is very low, with less than 2% at all levels (See Annex: XXIV).

Table 3.2
Number of teachers by Dalit, Janajati by level, Flash II 2008-09

Levels	Teachers' categories			
	Total	Dalit	Janajati	Disable
Primary	135,240	4,737	33,147	2,304
Lower secondary	35,194	929	6,514	355
Secondary	26,197	474	3,524	244
Total	196,631	6,140	43,185	2,903

Table 3.3
Percentage of teachers by Dalit, Janajati and level, Flash II 2008-09

Levels	Teachers' categories		
	Dalit	Janajati	Disable
Primary	3.5	24.5	1.7
Lower secondary	2.6	18.5	1.0
Secondary	1.8	13.5	0.9
Total	3.1	22.0	1.5

1.3 Teacher Training

Table 3.4 shows the training status of teachers in all types of schools. Out of the total number of teachers at primary level, 72.4% teachers are fully trained by the end of this school year. Out of the total trained teachers at primary level 12.2% were fully trained only in the school year 2008-09 (See Annex: XXV).

The table 3.4 below also shows the training status of lower secondary and secondary levels' teacher. Nearly 55.9% teachers at lower secondary and 75.4% teachers at secondary level are fully trained at the end of this school year (See Annex: XXVI). Compared to the beginning of the school year, the share of trained teachers has increased at the end of this school year. However, it is evident the teachers in lower secondary level are lagging behind in terms of training as compared to their colleagues in primary and secondary level.

Table 3.4
Teacher training status by types of training and level, Flash II 2008-09

Percentage of teachers	Primary			Lower secondary level			Secondary		
	Total	Female	Male	Total	Female	Male	Total	Female	Male
Percentage of teachers fully trained in all types of schools	72.4	72.2	72.8	55.9	64.9	54.5	75.4	67.1	75.5
Percentage of teachers partially trained in all types of schools	7.9	6.7	8.4	8.8	5.2	9.3	4.5	5.4	4.4
Percentage of teachers fully trained in this year in all types of schools	12.2	10.0	13.5	10.1	10.2	10.1	12.1	9.2	12.2
Percentage of teachers partially trained in this year in all types of schools	3.1	2.1	3.6	3.1	1.8	3.3	1.2	0.6	1.2
